

Future-Ready Learning

PROGRAMME OFFERINGS

Celebrating 25 Years of Success

iFundi is a pioneering force in South African skills development. From humble beginnings as a call center training provider, to our current position as a leading skills development organization, we have continually adapted to the evolving needs of the South African job market.

Welcome to iFundi

In a rapidly evolving world, your workforce isn't just an asset - it's your competitive edge. To lead in today's dynamic landscape, you need a partner who can assist you to develop an inclusive workforce and unleash your team's full potential. iFundi delivers personalized and relevant learning experiences that helps prepare your people and your organisation for the future of work.

Future-Ready Learning

iFundi strives to help our clients to bring out the best in their people by creating meaningful impact and confidently improving individual and business performance. Since 2000, our journey has been one of shared success - empowering over 20,000 professionals to launch and advance their careers in partnership with our clients.

With innovation at our core and diversity, equity and inclusivity in our DNA, we are more than just a training provider, we are your dedicated partner in building today's and tomorrow's workforce and changing lives.

Industry Aligned and Accredited

iFundi holds institutional and programmes accreditation with the Quality Council for Trades and Occupation. We are also accredited with various industry training partners, including Amazon, CompTIA and International Certificate for Business (formerly the 'Institute of Chartered Bookkeepers').

iFundi is a Level 2 contributor contributor on the BBBEE scorecard.

We're Revolutionising Education

iFundi is transforming education to meet the demands of today's dynamic workforce. Our programs are designed to deliver real-world results while empowering individuals to achieve lasting growth.

AI-Driven Personalized Learning

Simplify workforce development with iFundi's smart solutions. From automating Workplace Skills Plans (WSPs) to creating personalized learning journeys and providing 24/7 learner support and career planning tools, we help your team stand out and succeed.

A Ladder of Learning for Lifelong Growth

Careers are built step by step. With iFundi's Ladder of Learning, learners can start with short courses and progress to full qualifications or degrees—all while continuing to work and grow. Our programs make advancement flexible and scalable.

Work-Integrated Learning

The best learning happens on the job. That's why we collaborate with over 200 employers to offer real-world projects and job placements, giving learners practical experience and the ability to earn while they learn.

Personal and Leadership Development

Thriving in today's workplace requires more than technical skills. iFundi's programs develop emotional intelligence, resilience, and leadership capabilities, helping learners excel in any role and environment.

Globally Recognized Qualifications

iFundi offers over 30 internationally accredited qualifications and hundreds of short courses, including certifications from Amazon and CompTIA. These credentials are globally respected and ensure learners gain skills valued worldwide.

A Community of Experts

iFundi connects professionals with industry leaders and cutting-edge insights on AI, 4IR, and people management. Stay informed and ahead of the curve with our expert-led events and resources.

Supporting the Success of Your Workforce

Our innovative approach to learning and development empowers your workforce to achieve extraordinary results.

Become an Innovation Leader

Partnering with iFundi helps you to take your business into the future and become a champion of success. Lead innovation with our AI-powered learning solutions that transform potential into measurable performance.

iFundi Pro: Your Complete Out-sourced Training Solution.

iFundi Pro offers a comprehensive learning experience, combining AI-powered technology with personalized support, enabling users to focus on their L&D goals, beyond compliance, while the rest is handled by iFundi Pro.

iFundi Hub: Your Gateway to High-Quality Learning Content.

Our expertly curated content library saves time and money by eliminating the need for you to create your own. Utilizing AI-driven tools and project-based learning activities, we provide engaging learning solutions.

iFundi AI: Your Complete AI-Learning Platform.

iFundi.AI is a user-friendly platform that simplifies workforce development by identifying skills needs, creating tailored training plans, and providing AI-driven tutoring and mentoring tools for learners.

Program Offerings

iFundi's comprehensive training programs and qualifications empower individuals to excel in IT, management, finance, supply chain, and more.

INFORMATION TECHNOLOGY

The Fourth Industrial Revolution demands a digitally skilled workforce. iFundi is dedicated to empowering individuals with the essential skills to succeed in this rapidly evolving landscape.

MANAGEMENT

Our management programs are designed to equip you with the practical tools and strategic insights to excel in leadership roles, empowering you to navigate complex challenges and achieve remarkable results.

FINANCIAL SERVICES

Financial services skills development empowers businesses with the expertise to make informed financial decisions, manage risks effectively, and optimize resource allocation.

SUPPLY CHAIN

Effective supply chain management ensures the seamless flow of goods and services, reduces costs, minimizes disruptions, and enhances customer satisfaction, ultimately driving business growth and profitability.

OTHER

By cultivating a highly skilled workforce, companies can drive innovation, boost productivity, and create new opportunities. From engineering and technology to healthcare and agriculture, specialized training empowers individuals to excel in their fields, contributing to a thriving and competitive economy.

AI Developer

Step into the future of technology as you develop expertise in AI development, integrating AI algorithms and logic into IT projects, writing, testing, and deploying code, and converting machine learning APIs for other applications.

Programme outline:

- Overview of Artificial Intelligence
- Introduction to Mathematics and Statistics
- Analytical Thinking and Problem Solving
- Databases and Data Visualization
- Computing Theory
- Introduction to Artificial Intelligence, Machine Learning Deep Learning
- Introduction to Governance, Legislation and Ethics

Qualification details:

 Programme type: Occupational Certificate

 SAQA ID: 118792

 NQF level: 5

 Number of credits: 209

Cloud Administrator

This qualification equips learners with skills to implement cost-effective cloud-based systems, migrate local infrastructure, monitor platforms, ensure seamless service delivery, and maintain security protocols.

Programme outline:

- Introduction to Cloud Computing Elements
- Containers, Cloud Native, Kubernetes
- Cloud Security, Risks, Vulnerabilities, Mitigation
- Data and Databases in the Cloud
- Fundamentals of Cloud Computing Platforms
- Introduction to Cloud Computing Governance, Legislation, Ethics
- 4th Industrial Revolution and Future Skills
- Design Thinking Principles for Innovation

Qualification details:

 Programme type: Occupational Certificate

 Programme ID: 118699

 NQF level: 4

 Number of credits: 149

CompTIA A+

CompTIA A+ is the industry standard for IT careers in the digital world, attracting graduates to end point management and technical support roles. Performance testing demonstrates their ability to think on their feet, and CompTIA A+ is more frequently listed in tech support job listings.

Programme outline:

- Hardware
- Operating Systems
- Software Troubleshooting
- Networking
- Troubleshooting
- Security

Qualification details:

📄 Programme type: Professional certification program

🏆 Programme ID: 220-1101 & 220-1102

🏆 NQF level: N/A

🏆 Number of credits: N/A

CompTIA+ Network

This program equips students with essential skills for network establishment, maintenance, troubleshooting, and security, preparing them for a rewarding career in networking and cybersecurity, providing a comprehensive range of technical and hands-on knowledge.

Programme outline:

- Networking Concepts
- Network Implementations
- Network Operations
- Network Security
- Network Troubleshooting

Qualification details:

📄 Programme type: Professional certification program

🏆 Programme ID: N10-008 & N10-009

🏆 NQF level: N/A

🏆 Number of credits: N/A

CompTIA+ Security

CompTIA Security+ is a globally recognized certification that validates essential skills for IT security careers. It is the most widely adopted early career cybersecurity certification, offering hands-on, performance-based questions on the certification exam. Security+ is used in more job roles than any other certification in the industry, preparing individuals for a fulfilling career.

Programme outline:

- General Security Concepts
- Threats, Vulnerabilities & Mitigations
- Security Architecture
- Security Operations
- Security Program Management & Oversight

Qualification details:

📄 Programme type: Professional certification program

🏷️ Programme ID: N10-008 & N10-009

🏷️ NQF level: N/A

🏷️ Number of credits: N/A

Computer Technician

Master the fundamentals of hardware, software, and network systems through hands-on training in installation, maintenance, and repair, including accurate configuration records, support tickets, and security protocols.

Programme outline:

- Introduction to Data Communication and Networking
- Basics of Computer Architecture: Hardware and Software
- Sustainable Computer Environment and Green Technologies
- Social Media and Digital Literacy
- End User Computing
- Business Communication and Customer Services
- Work Standards Prepared

Qualification details:

📄 Programme type: Occupational Certificate

🏷️ SAQA ID: 101408

🏷️ NQF level: 5

🏷️ Number of credits: 282

Cybersecurity Analyst

Defend digital assets and protect critical information systems as a trained cybersecurity professional, focusing on securing networks, systems, and information resources from malicious attacks.

Programme outline:

- Introduction to Cybersecurity
- Fundamentals of Network Security and Defense
- Cybersecurity and Cyber Threats and Attacks
- Introduction to Cybersecurity Governance, Legislation and Ethics
- Fundamentals of Design Thinking and Innovation
- Logical Thinking and Basic Calculations
- Computers, Devices, and Computing Systems
- Data and Database Vulnerabilities
- Introduction to 4IR and Future Skills

Qualification details:

📄 Programme type: Occupational Certificate

★ SAQA ID: 118986

★ NQF level: 5

★ Number of credits: 173

Data Science Practitioner

Transform raw data into actionable insights as you develop expertise in data collection, analysis, and visualization while supporting the complete data lifecycle to solve fundamental business problems.

Programme outline:

- Introduction to Data Science and Data Analysis
- Logical Thinking and Basic Calculations: Refresher
- Computers and Computing Systems
- Computing Theory
- Basic Statistics for Data Analytics
- Statistics essentials for Data Analytics
- Data Science and Data Analysis
- Data Analysis and Visualization

Qualification details:

📄 Programme type: Occupational Certificate

★ Programme ID: 118708

★ NQF level: 5

★ Number of credits: 185

End-User Computing

Gain confidence in digital workspace operations through practical training in essential computing skills, empowering you to operate effectively in modern business environments.

Programme outline:

- Intro to PC's
- Word Processing
- Spreadsheets
- Database
- Office Skills
- Presentations
- Internet and Email
- Reading and Writing
- Numeracy

Qualification details:

 Programme type: Occupational Certificate

 Programme ID: 49077

 NQF level: 3

 Number of credits: 130

IoT Developer

Connect the physical and digital worlds by mastering IoT technology, from sensor deployment to cloud integration, managing comprehensive solutions that drive smart decision-making.

Programme outline:

- Introduction to Internet of Things
- Computers, Devices and Computing Systems
- Building Blocks of Internet of Things
- Internet of Things Design and Development
- Considerations
- Data, Databases and Visualization
- 4IR and Future Skills
- Design Thinking Principles of Innovation
- Basic Electronic Principles

Qualification details:

 Programme type: Occupational Certificate

 SAQA ID: 119262

 NQF level: 4

 Number of credits: 141

IT Systems Support

Advance your IT career with specialized training in network administration and advanced systems support, building upon foundational skills with a focus on networking and comprehensive support services.

Programme outline:

- Personal Development
- MS Windows Server: Install Store and Computer
- MS Windows Server: Networking
- MS Windows Server: Identity
- Desktop Infrastructure Implementation
- Desktop Application Environment Implementation
- Enterprise Development Serve

Qualification details:

📄 Programme type: Certificate

🌟 SAQA ID: 48573

🌟 NQF level: 5

🌟 Number of credits: 147

IT Technical Support

The National Certificate in Information Technology Technical Support NQF Level 4 equips learners with skills for providing technical support in IT environments, including installation, diagnosis, repair, maintenance, and upgrading computer systems and equipment.

Programme outline:

- Effective writing skills
- Speaking of effect
- Accessing and Using Information
- Understanding finances
- Statistics and probabilities
- Geometric shapes and motion
- Understanding computer components
- Principles of computer networks
- Operating systems
- Troubleshooting

Qualification details:

📄 Programme type: Certificate

🌟 SAQA ID: 78964

🌟 NQF level: 4

🌟 Number of credits: 163

RPA Developer

Robotics Process Automation
Revolutionize business efficiency by designing and implementing automated solutions through RPA technology, working alongside solution architects to develop process automation software.

Programme outline:

- Overview of Robotic Process Automation
- Revision: Basic calculations and logical thinking
- Computing Theory
- Computers and Computing systems
- Data, Databases and Data Scraping
- Introduction to RPA for Automation of processes
- 4IR and Future Skills

Qualification details:

 Programme type: Occupational Certificate

 Programme ID: 119242

 NQF level: 5

 Number of credits: 185

Software Developer

Software Developer Build the future of technology through hands-on training in programming, web development, and mobile applications, preparing for successful careers in the dynamic technology industry.

Programme outline:

- Computers and Computer Systems
- Desktop and Professional Software to Communicate and Visualize Information
- Automated Web Scraping as Data Source
- Logical Thinking and Basic Calculations
- Computer Theory
- 4IR and Future Skills
- Design Thinking Principles of Innovation

Qualification details:

 Programme type: Occupational Certificate

 Programme ID: 118707

 NQF level: 5

 Number of credits: 220

Software Engineer

Architect powerful software solutions while mastering the complete development lifecycle, from design to deployment, preparing you for professional excellence in systems development.

Programme outline:

- Software Engineering
- Programming
- Database design and information systems
- Fundamentals of Project Management in relation to Software Engineering
- Digital Business Mathematics
- Document system design

Qualification details:

 Programme type: Occupational Certificate

 Programme ID: 119458

 NQF level: 6

 Number of credits: 240

Business Administration

Transform your organizational capabilities with comprehensive training in administrative excellence, developing essential skills for effective office management across various sectors.

Programme outline:

- Ethics in the Workplace
- Building Workplace Relationships
- Managing Time/ Applied Project
- Running Effective Meetings
- Implement Administrative Procedures
- Expenditure vs Budget
- Report Writing
- Managing Service Providers
- Managing Customer Service
- Managing Teams

Qualification details:

 Programme type: Certificate

 SAQA ID: 61595
